Chief Justice of the United States
LEROY A. LINCOLN
President, Metropolitan Life Insurance Company
WILLIAM V. PRATT
Rear Admiral U. S. Navy, Retired
DAVID FAIRCHILD
Special Agricultural Explorer, U. S. Department of Agriculture
ALEXANDER WETMORE
Assistant Secretary, Smithsonian Institution
H. H. ARNOLD
Major General, Chief, U. S. Army Air Corps
GILBERT GROSVENOR
Editor of National Geographic Magazine
J. HOWARD GORE
Prof. Emeritus Mathematics, The George Washington University

JOHN J. PERSHING
General of the Armies of the United States
CHARLES G. DAWES
Formerly Vice-President of the United States
CHARLES F. KETTERING
President, General Motors Research Corporation
GEORGE OTIS SMITH
Formerly Director U. S. Geological Survey
ELISHA HANSON
Lawyer and Naturalist
JOHN OLIVER LA GORCE
Associate Editor of the National Geographic Magazine
GEORGE SHIRAS, 3d
Formerly Member U. S. Congress, Faunal Naturalist and Wild-Game Photographer
F. K. RICHTMYER
Dean, Graduate School, Cornell University

ORGANIZED FOR "THE INCREASE AND DIFFUSION OF GEOGRAPHIC KNOWLEDGE"

To carry out the purposes for which it was founded fifty-one years ago, the National Geographic Society publishes this Magazine monthly. All receipts are invested in The Magazine itself or expended directly to promote geographic knowledge.

Articles and photographs are desired. For material which The Magazine can use, generous remuneration is made. Contributions should be accompanied by addressed return envelope and postage.

Immediately after the terrific eruption of the world's largest crater, Mt. Katmai, in Alaska, a National Geographic Society expedition was sent to make observations of this remarkable phenomenon. Four expeditions have followed and the extraordinary scientific data resulting given to the world. In this vicinity an eighth wonder of the world was discovered and explored—"The Valley of Ten Thousand Smokes," a vast area of steaming, spouting fissures. As a result of The Society's discoveries this area has been created a National Monument by proclamation of the President of the United States.

The Society coöperated with Dr. William Beebe in a deep-sea exploration of undersea life off Bermuda, during which a world record depth of 3,028 feet was attained August 15, 1934, enabling observations of hitherto unknown submarine creatures.

The Society also had the honor of subscribing a substantial sum to the expedition of Admiral Peary, who discovered the North Pole, and contributed $100,000 to Admiral Byrd's Antarctic Expeditions.

The Society granted $25,000, and in addition $75,000 was given by individual members, to the Government when the congressional appropriation for the purpose was insufficient, and the finest of the giant sequoia trees in the Giant Forest of Sequoia National Park of California were thereby saved for the American people.

The Society's notable expeditions to New Mexico have pushed back the historic horizons of the southwestern United States to a period nearly eight centuries before Columbus crossed the Atlantic. By dating the ruins of the vast communal dwellings in that region, The Society's researches have solved secrets that have puzzled historians for three hundred years. The Society is sponsoring an ornithological survey of Venezuela.

On November 11, 1935, in a flight sponsored jointly by the National Geographic Society and the U. S. Army Air Corps, the world's largest balloon, *Explorer II*, ascended to an officially recognized altitude record of 72,395 feet. Capt. Albert W. Stevens and Capt. Orvil A. Anderson took aloft in the gondola nearly a ton of scientific instruments, and obtained results of extraordinary value.
